PREFACE.....	I
CONTENT.....	IV
1 INTRODUCTION .....	1
Workshop Themes.....	1
Programme.....	4
The Arc of History.....	5
Keynote: Janice Jiggins, Wageningen University & Research Centre	
The converging insecurities of food, water, energy and climate, and their implications for 21st Century farming systems .....	6
Keynote: Andrew Campbell, Charles Darwin University	
2 PAPERS .....	7
WORKSHOP THEME 1 INNOVATION, KNOWLEDGE EXCHANGE AND LEARNING .....	7
Workshop 1.1: Actor-driven or instrument driven: Does it make a difference? .....	9
Convenors: Jesús Rosales Carreón, Fleur Marchand and Lies Debruyne	
Different perspectives on animal health and implications for communication between stakeholders	10
Susanne Hoischen-Taubner, Alexandra Bielecke and Albert Sundrum	
Farmers' rationality in soil management: which factors influence implementation of sustainable management practices in soil conservation? – A case study in Germany and Austria .....	19
Magdalena Werner, Horst-Henning Steinmann, Norman Schlatter, Heide Spiegel, Erwin Wauters and Greet Ruysschaert	
Using games to support multi-stakeholder decision-making for sustainable development of livestock production.....	26
E.M. de Olde and I.J.M. de Boer	
Development and evaluation of an on-demand sustainability tool in Flanders .....	40
Coteur Ine, Marchand Fleur, Debruyne Lies, Bijttebier Jo, Triste Laure and Lauwers Ludwig	
Next Generation Decision Support Systems for Farmers: Sustainable Agriculture through Sustainable IT .....	51
Jessica Lindblom, Christina Lundström and Magnus Ljung	
Linkage processes between niche and regime: an analysis of Learning and Innovation Networks for Sustainable Agriculture across Europe .....	60
J. Ingram, N. Curry, J. Kirwan, D. Maye and K. Kubinakova	
Approaching initiatives stimulating sustainable farming as characteristics of learning practices .....	71
Laure Triste, Fleur Marchand, Joke Vandenabeele, Lies Debruyne, Ine Coteur and Ludwig Lauwers	

<b>Workshop 1.2: Evaluation of policy schemes supporting innovation and advisory services: new concepts, methodologies and case studies.....</b>	<b>83</b>
Convenors: Susanne von Münchhausen, Anna M. Häring, Henrike Rieken, Kristin Davis, Pierre Labarthe, Andrea Knierim, Michael Kügler and Sabine O'Hara	
<b>'Failing' to implement FAS under diverse extension contexts: a comparative account of Greece and Cyprus .....</b>	<b>85</b>
Alex Koutsouris	
<b>Advisory services in the United Kingdom: exploring 'fit for purpose' criteria.....</b>	<b>94</b>
Katrin Prager, Rachel Creaney and Altea Lorenzo-Arribas	
<b>Evaluating a Co-innovation Policy Initiative in New Zealand .....</b>	<b>113</b>
Jeff Coutts, Neels Botha and James A. Turner	
<b>Advisory Services in System of Agricultural Knowledge and Information in Poland.....</b>	<b>123</b>
Jozef Kania, Krystyna Vinohradnik and Agnieszka Tworzyk	
<b>Systemic problems hampering innovation in the New Zealand Agricultural Innovation System.....</b>	<b>134</b>
James A. Turner, Kelly Rijswijk, Tracy Williams, Laurens Klerkx and Tim Barnard	
<b>Farm Innovation through Rural Development Programmes 2014-2020: an evaluation model of the EIP .....</b>	<b>144</b>
Simona Cristiano and Patrizia Proietti	
<b>Advisory services within national AKIS – concepts and empirical evidence from selected EU member states .....</b>	<b>157</b>
Knierim, A., Boenning, K., Caggiano, M., Cristóvão, A., Dirimanova, V., Koehnen, T., Labarthe, P. and K. Prager	
<b>Analysis of the Role of an Innovation Broker Appointed by an Environmental Innovation Partnership in the Cotton Industry, Queensland, Australia .....</b>	<b>170</b>
Olive Hood, Jeff Coutts, Gus Hamilton and Janice Jiggins	
<b>Linking Innovation and Research in Agricultural Knowledge and Innovation Systems .....</b>	<b>184</b>
Krijn Poppe	
<b>How to address up-scaling and sustainability of innovative advisory services: the case of management advice for family farms in Africa .....</b>	<b>194</b>
Guy Faure, Aurélie Toillier and Ismail Moumouni	
<b>From the "best fit" to the "big fuss": the lost opportunities of the Italian advisory services.....</b>	<b>209</b>
Monica Caggiano and Pierre Labarthe	
<b>Workshop 1.3: Innovation Platforms as Drivers of Institutional Change .....</b>	<b>219</b>
Convenors: Janice Jiggins, Ray Ison and Niels Röling	
<b>A consultation process for developing an innovation agenda for Regional Water Productivity in Australia: the case of a fledgling innovation platform in research .....</b>	<b>220</b>
Margaret Ayre, Ruth Nettle and Manuela Erazo Bobenrieth	
<b>Using Co-innovation to Stimulate Innovation in the New Zealand Agricultural Sector .....</b>	<b>236</b>
Neels Botha, Laurens Klerkx, Bruce Small and James A. Turner	
<b>Two steps forward and one step back: Progress towards innovation platforms for Agricultural Workforce development in Australia.....</b>	<b>244</b>

<b>“Fairebel” fair milk: a multi-level innovation .....</b>	<b>258</b>
Marlène Feyereisen and François Mélard	
<b>Learning to change farming and water managing practices in response to challenges of climate change and sustainability .....</b>	<b>266</b>
Chris Blackmore	
<b>Script or improvisation? Institutional conditions and their local operation.....</b>	<b>277</b>
Barbara van Mierlo and Edmond Totin	
<b>Innovation from a discursive perspective: Discourses and accountability in pig farming policies....</b>	<b>288</b>
Maarten Crivits	
<b>Agricultural Research: From Recommendation Domains to Arenas for interaction. Experiences from West Africa .....</b>	<b>303</b>
Röling, N., Jiggins, J., Hounkonnou D. and van Huis, A.	
<b>Programmes, projects and learning inquiries: institutional mediation of innovation in research for development.....</b>	<b>315</b>
Ison, R.L., Carberry, P., Davies, J., Hall, A., McMillan, L., Maru, Y., Pengelly, B., Reichelt, N., Stirzaker, R., Wallis, P., Watson, I. and Webb, S.	
<b>Innovations for institutional change towards adaptive co-management of human inhabited National Park in Mozambique .....</b>	<b>328</b>
Nícia Givá and Nadarajah Sriskandarajah	
<b>Innovation platforms for Institutional change: the case of Pesticide Stewardship Network in the Ethiopian Rift Valley .....</b>	<b>341</b>
Tadesse Amera and Nadarajah Sriskandarajah	
<b>Unravelling group dynamics in institutional learning processes.....</b>	<b>354</b>
Wiebke Wellbrock and Andrea Knierim	
<b>Insights from the New Zealand experiment in Farmer First Research.....</b>	<b>361</b>
Janet Reid and Rob Brazendale	
<b>Agricultural innovation platforms in West Africa: How does strategic institutional entrepreneurship unfold in different value chain contexts? .....</b>	<b>370</b>
Annemarie van Paassen, Laurens Klerkx, Samuel Adjei-Nsiah, Richard Adu-Acheampong, Bara Ouologuem and Elisabeth Zannou	
<b>Workshop 1.4: The development of more entrepreneurial farming systems and the move towards a more farm-level approach in innovation and learning.....</b>	<b>381</b>
Convenors: Pieter Seuneke, Thomas Lans and Martin Mulder	
<b>Learning to run a business: transforming charcoal production of family farmers in Santa Catarina, Brazil .....</b>	<b>382</b>
Alfredo Celso Fantini and Sandro Luis Schlindwein	
<b>Assessing learning regimes leading to sustainable intensification at the farm level: a new perspective for management assistance for family farms.....</b>	<b>389</b>
Toillier Aurélie, Baudoin Alice and Chia Eduardo	
<b>Can management advice to small-scale farmers trigger strategic thinking? .....</b>	<b>400</b>

<b>Doing the Unthinkable: Linking Farmers' Breadth of View and Adaptive Propensity to the Achievement of Social, Environmental and Economic Outcomes .....</b>	<b>412</b>
Lesley M. Hunt, John R. Fairweather, Chris J. Rosin and Hugh Campbell	
<b>Innovation and Social Learning in Agricultural Systems. Case Study: Murcia, Spain.....</b>	<b>420</b>
María Rivera, Ana Teresa Herrera and Ignacio de los Ríos	
<b>Toward an integrative perspective on learning in innovation initiatives: The case of the Dutch greenhouse sector.....</b>	<b>428</b>
Pieter J. Beers, Anne-Charlotte Hoes and Barbara van Mierlo	
<b>Workshop 1.5: Returning to the farming and food systems as they are - Action and phenomenon based learning as prerequisite for transdisciplinarity .....</b>	<b>436</b>
Convenors: Geir Lieblein, Edvin Østergaard and Tor Arvid Breland	
<b>Bridging the Gap between Academia and Food System Stakeholders.....</b>	<b>437</b>
Charles Francis, Geir Lieblein, Tor Arvid Breland, Edvin Østergaard, Suzanne Morse and Anna Marie Nicolaysen	
<b>Facilitating International Doctoral Education: Agroecology &amp; Capacity Building.....</b>	<b>447</b>
Lennart Salomonsson, Margarita Cuadra, Charles Francis and Geir Lieblein	
<b>Involved PhD research – a case study between agronomy and social sciences.....</b>	<b>455</b>
Stephanie Klaedtke, Véronique Chable and Pierre Stassart	
<b>Creating Student Confidence for Communication with Farmer Stakeholders .....</b>	<b>464</b>
Mary Wiedenhoeft, Paul Porter, Robert DeHaan and Charles Francis	
<b>Assessing Agroecology Education: Qualitative Analysis of Student Learner Documents.....</b>	<b>473</b>
Anna Marie Nicolaysen, Tor Arvid Breland, Geir Lieblein, Suzanne Morse and Charles Francis	
<b>Engaging researchers with Learning and Innovation Networks for Sustainable Agriculture (LINSAs).....</b>	<b>481</b>
Anna Augustyn and Gusztav Nemes	
<b>Experiential Learning in a Transdisciplinary Setting – Learning from Experiences in Rural Development studies .....</b>	<b>490</b>
Susanne Hofmann-Souki, Juana Cruz Morales, Jany Jarquín, Myriam Paredes Cauca, Ronald Herrera and Maria Rosa Yumbla	
<b>Transdisciplinarity as an emergent property in an agricultural research for development project.</b>	<b>504</b>
W.D. Bellotti	
<b>MSc Agriculture students working with ex-campus stakeholders: first experiences and challenges</b>	<b>516</b>
Vibeke Langer, Mogens Lund and Mira Arpe Bendevis	
<b>Workshop 1.6: Linking scientists and farmers, research and application - methods of on-farm research projects in livestock sciences .....</b>	<b>523</b>
Convenors: Christine Leeb, Christoph Winckler and Katharina Schodl	
<b>Economic efficiency of small group housing and aviaries for laying hens in Germany.....</b>	<b>524</b>
Petra Thobe	

<b>Linking researchers, advisers and livestock farmers in a multidisciplinary approach to analysing working conditions on farms.....</b>	<b>531</b>
F Kling-Eveillard, Annie Dufour, Sylvie Cournot, Nathalie Hostiou, Sophie Chauvat and Gérard Servière	
<b>A deductive approach to animal health planning in organic dairy farming: Method description ....</b>	<b>542</b>
Margret Selle, Susanne Hoischen-Taubner and Albert Sundrum	
<b>A normative planning device to link economics with practice: the case of up scaling in dairy farming</b>	<b>551</b>
J. Hamerlinck, J. Buysse, L. Lauwers and J. Van Meensel	
<b>Balancing multiple objectives in Southland, New Zealand: Performance of dairy cow wintering systems .....</b>	<b>559</b>
D.E. Dalley, J.B. Pinxterhuis, M. Hunter, T Geddes and G. Verkerk	
<b>Benefits and challenges of the on-farm implementation of measures aimed at integrating aspects of sustainability into pig fattening .....</b>	<b>568</b>
Katharina Schodl, Christine Leeb and Christoph Winckler	
<b>Workshop 1.7: Collaborative learning to solve problems and develop innovations in complex systems: focus on methodologies.....</b>	<b>575</b>
Convenors: Brigitte Kaufmann, Christian Hülsebusch and Anja Christinck	
<b>Collaborative learning for self-driven change in complex situations.....</b>	<b>576</b>
M.J. Restrepo, M.A. Lelea, A. Christinck, C. Hülsebusch and B. Kaufmann	
<b>Initial diagnosis of local context for agricultural development projects: cognitive maps to conceptualize socio-ecological systems and elicit stakeholders' viewpoints.....</b>	<b>591</b>
Tardivo Caroline, Delmotte Sylvestre, Le Page Christophe, Barbier Jean-Marc and Cittadini Roberto	
<b>Agricultural viability in a water-deficit basin: can participatory modelling and design activities trigger collaboration between water management and agriculture stakeholders?.....</b>	<b>601</b>
Clément Murgue, Olivier Therond and Delphine Leenhardt	
<b>From information giving to mutual scenario definition: Stakeholder participation towards Sustainable Rubber Cultivation in Xishuangbanna, Southwest China .....</b>	<b>620</b>
Aenis, Thomas and Wang, Jue	
<b>Integration of knowledge in inter- and transdisciplinary research projects: Use of Constellation Analysis in a project of sustainable land use management .....</b>	<b>628</b>
Martina Schäfer, Melanie Kröger and Jana Rückert-John	
<b>A co-development approach to investigating wintering options on dairy farms in southern New Zealand .....</b>	<b>638</b>
D.E. Dalley, J.B. Pinxterhuis, M. Hunter, T Geddes and I Tarbotton	
<b>Multi-level joint learning about locally managed innovation funds .....</b>	<b>646</b>
Ann Waters-Bayer, Laurens van Veldhuizen and Chesha Wettasinha	
<b>Evaluating innovative scenarios to enhance mixed crop-livestock farm sustainability: a partnership methodology based on farmers' long-term strategies.....</b>	<b>656</b>
Ryschawy J, Joannon A and Gibon A	
<b>Reflections on and lessons from a deliberative process for water management – a New Zealand case study .....</b>	<b>665</b>
Denise Bewsell, Bruce Small, and Kelly Rijswijk	

<b>‘Shift happens’: Co-constructing transition pathways towards the regional sustainability of agriculture in Europe .....</b>	<b>680</b>
McKee, A., Holstead K., Sutherland L.A., Pinto-Correia, T. and Guimarães, H.	
<b>Re-thinking agricultural practices to improve water quality: two participatory methodologies for collaborative learning.....</b>	<b>690</b>
Chantre Emilia, Prost Lorène, Guichard Laurence and Reau Raymond	
<b>From systematization to learning .....</b>	<b>703</b>
Jorge Chavez-Tafur, Teobaldo Pinzas and Teresa Gianella	
<b>Changing institutional culture: PM&amp;E in transdisciplinary research for development .....</b>	<b>713</b>
Oleg Nicetic and Elske van de Fliert	
<b>Establishing transdisciplinary research and learning environments for rural development – a network and process model .....</b>	<b>721</b>
Susanne Hofmann-Souki, Álvaro Acevedo Osorio, Teresita Camacho Bernal, Wolfgang Bokelmann, Juana Cruz Morales, Mario López and María Rosa Yumbla	
<b>Innovative governance and dynamics of cognitive models for agriculture in territorial development – Lessons from a collaborative research program .....</b>	<b>738</b>
André Torre and Frédéric Wallet	
<b>Workshop 1.8: Knowledge and innovation brokers: lubricating knowledge development and innovation networks .....</b>	<b>749</b>
Convenors: Eelke Wielinga, Laurens Klerks and Michael Kuegler	
<b>Exploring the emerging ‘intermediation’ (facilitation and brokerage) roles in agricultural extension</b>	<b>751</b>
Alex Koutsouris	
<b>Modeling transdisciplinary cooperation in the agriculture sector for European Innovation Partnerships .....</b>	<b>761</b>
Katharina Diehl and Anita Beblek	
<b>Third party roles of brokers in temporary knowledge networks .....</b>	<b>773</b>
Barbara King and Ruth Nettle	
<b>Efficient knowledge systems for supporting irrigation technologies in horticulture .....</b>	<b>784</b>
Bettina König	
<b>Transition towards low-input cropping systems: characterization of actionable knowledge for technical change .....</b>	<b>794</b>
Toffolini Quentin, Jeuffroy Marie-Hélène and Prost Lorène	
<b>Acting as Agricultural Innovation brokerage in Italy: experiences from the Rural Development Programmes 2007-2013 .....</b>	<b>807</b>
Simona Cristiano and Patrizia Proietti	
<b>Become a broker: the metamorphosis of an advisor.....</b>	<b>818</b>
Patrizia Proietti and Gianluca Brunori	
<b>Concepts for Co-Creating Innovations in the EIP .....</b>	<b>829</b>
Eelke Wielinga	

<b>How to strengthen the link between advisors and research in a privatized advisory system? – The case of Brandenburg, Germany .....</b>	<b>840</b>
Ulrike Knuth, Andrea Knierim	
<b>Government stimulation of operational groups for innovation in agriculture. Understanding the framing of the government support to knowledge exchange network groups in the Netherlands, as an example for Europe.....</b>	<b>849</b>
Monica A.M. Commandeur	
<b>Workshop 1.9: Farmland (bio-)diversity in the hands and minds of farmers: Farming systems approaches to landscape protection and biodiversity preservation .....</b>	<b>860</b>
Convenors: Robert Home, Maiann Suhner, Silvia Tobias	
<b>Green belts in the hands and minds of farmers: A socio-agronomical approach to farmers' practices</b>	<b>862</b>
Françoise Alavoine-Mornas and Sabine Girard	
<b>The Clash between Global Master-plans and Local Contexts: conflicts and contradictions within initiatives for payment of ecosystem services in Brazil and Nepal.....</b>	<b>872</b>
Kristina Marquardt, Örjan Bartholdson, Adam Pain, Roberto Porro and Lennart Salomsson	
<b>Provision of Public Goods Through Mountain Meadows and Pastures in Aosta Valley (Italy) .....</b>	<b>882</b>
Patrizia Borsotto, Sylvie Chaussod and Stefano Trione	
<b>Farmer Supported Biodiversity Conservation in Uttarakhand, India .....</b>	<b>891</b>
Anna Marie Nicolaysen, Charles Francis and Geir Lieblein	
<b>Mountain agriculture at the crossroads, biodiversity, culture, and modernization, conflicting and interacting interests.....</b>	<b>899</b>
Paulina Rytkönen Madeleine Bonow and Patrick Dinnétz.	
<b>Toward redesigning the relationship between farming systems and biodiversity conservation. ....</b>	<b>911</b>
Brédart David, Denayer Dorothée and Mormont Marc	
<b>Sustainable landscape management – the view from the grassroots .....</b>	<b>918</b>
Katrin Prager	
<b>Motivations for implementation of ecological compensation areas on Swiss farms .....</b>	<b>930</b>
Robert Home, Oliver Balmer, Ingrid Jahrl, Matthias Stolze and Lukas Pfiffner	

<b>WORKSHOP THEME 2: FEEDING THE FUTURE WITH SUSTAINABLE AGRO-FOOD SYSTEMS: ALTERNATIVE PRODUCTION, DISTRIBUTION AND CONSUMPTION VIEWS AND APPROACHES .....</b>	<b>938</b>
<b>Workshop 2.1: Healthy growth in value-based chains: From niche to volume with integrity and trust.....</b>	<b>938</b>
Convenors: Hilde Bjørkhaug, Handan Giray, Gunn-Turid Kvam and Egon Noe	
<b>Dynamics and stability in growth of values based food chains: Understanding organizational evolution in organic food systems.....</b>	<b>940</b>
Klaus Brønd Laursen and Egon Noe	
<b>Policy goals, research needs and research regarding organic sector in Finland .....</b>	<b>950</b>
Helmi Risku-Norja , Minna Mikkola , Jaakko Nuutila	
<b>Institutional Adaptive Capacity of Organic Farmer Associations in growing Organic Agrifood Systems .....</b>	<b>962</b>
Valentin Fiala, Bernhard Freyer, Rebecca Paxton and Jim Bingen	
<b>Conventionalization or diversification? – Development in the Danish organic production sector following market expansion .....</b>	<b>973</b>
Martin Thorsøe and Egon Noe	
<b>State of the art review - On healthy growth initiatives in the mid-scale values-based chain of organic food.....</b>	<b>984</b>
Gunn-Turid Kvam and Hilde Bjørkhaug	
<b>The perception of organic values and ways of communicating them in mid-scale values based food chains .....</b>	<b>996</b>
Christoph Furtschegger and Markus Schermer	
<b>Strategies for medium-sized values-based food chains during growth processes.....</b>	<b>1007</b>
Muenchhausen, S.v., Schulz, K., Haering, A.M. and Llamas Vacas, R.	
<b>Evaluation of agroecology policy schemes in Andalusia driving cooperation initiatives for the mid-scale distribution and consumption. .....</b>	<b>1016</b>
Ramos, María and Torremocha, Eva	
<b>Workshop 2.2: Transition Issues in Production, Marketing and Consumption for the Agro-Ecological Development of Animal Production .....</b>	<b>1026</b>
Convenors: Yolanda Mena Guerrero, Francisco de Asís Ruiz Morales and Jean-Paul Dubeuf	
<b>The untied qualification processes impacts on the argan territorial productive systems and on the “food social space” changes. .....</b>	<b>1028</b>
Thierry Linck and Hermilio Navarro	
<b>Developing small goat holders to face food security, poverty and environmental challenges. Lessons from a comparative analysis in different regions of the world (governance, markets, production systems) for experiencing successful projects .....</b>	<b>1040</b>
Jean-Paul Dubeuf	
<b>How public policies on livestock sectors could support innovations and transitions toward a renewed pastoralism in Corsica. A contribution to a prospective approach on the future of pastoralism</b>	<b>1051</b>
Jean-Paul Dubeuf	

<b>Actions to increase the sustainability of sheep production systems in Mediterranean disadvantaged areas: The case of the Lojeña sheep breed .....</b>	<b>1061</b>
F.A. Ruiz, C. Lara, Y. Mena and R.Gutiérrez	
<b>Marketing improvement of organic meat and milk in Andalusia through the enhancement of the environmental role of this production model .....</b>	<b>1067</b>
Mena, Y, Gutiérrez-Peña, R., Ruiz-Morales F.A., Damian, M., Aguirre, I., Fernandez-Rebollo, P. and Horcada, A.	
<b>International Finance Institutions hamper transition to higher welfare systems in animal production</b>	<b>1075</b>
Nicolas Entrup	
<b>Transition toward systems linking animal genetic resources, low input farming systems and products processed on the farm; development logics of the Bretonne Pie Noir local cattle breed</b>	<b>1085</b>
Lauvie A., Couix N. and Sorba J.M.	
<b>Qualifying the Corsican cheeses as pastoral products: Issues for market mediations.....</b>	<b>1093</b>
Jean Michel Sorba and Melissa Ait Mouloud	
<b>Workshop 2.4: The role of Localized Agrifood Systems in a Globalised Europe.....</b>	<b>1103</b>
Convenors: Andrea Marescotti, Giovanni Belletti, Artur Cristóvão, Dominique Barjolle, François Casabianca and Paulina Rytkönen	
<b>The effects of the legal protection Geographical indications: PDO/PGIs in Tuscany.....</b>	<b>1104</b>
Belletti Giovanni, Brazzini Alessandro and Marescotti Andrea	
<b>A crop model as an “intermediary object”: Lessons from a participatory research on the agronomical bases of PGI Corsican Clementine typicity .....</b>	<b>1115</b>
Raphael Belmin, François Casabianca, Jean Marc Meynard	
<b>Alternative Food Networks in Piedmont: farmers’ direct sales and urban consumers .....</b>	<b>1129</b>
Alessandro Corsi, Silvia Novelli and Giacomo Pettenati	
<b>The aptitude to promote value creation in GI areas through the adoption of rural development policies.....</b>	<b>1140</b>
Marcello De Rosa, Felice Adinolfi, Luca Bartoli and Silvia Chiappini	
<b>Institutionalizing short food supply chains for sustainable resource management: challenging issues</b>	<b>1150</b>
Marie Dervillé and Frederic Wallet	
<b>Is “local” enough? New localised food networks in the Swiss dairy industry .....</b>	<b>1164</b>
Jérémie Forney and Isabel Häberli	
<b>Can systems using hyper specialized breeds be considered as localized agrifood systems? The example of the Belgian Texel breed.....</b>	<b>1174</b>
Lauvie Anne and Stassart, P.	
<b>Territorial anchorage of French dairy ewes sectors: Historical analysis of interdependence between given localized agrifood systems .....</b>	<b>1182</b>
Millet, Morgane and Casabianca, François	
<b>Comparing registration efforts for Protected Geographical Indications in Austria, Colombia and Italy .....</b>	<b>1194</b>
Xiomara F. Quiñones R., Elisa Barzini, Giovanni Belletti, Friedrich Leitgeb, Andrea Marescotti, Marianne Penker, Luis F. Samper G.and Silvia Scaramuzzi	

<b>Constructing the new rurality– challenges and opportunities of a recent shift in Swedish rural policies .....</b>	<b>1203</b>
Paulina Rytkönen	
<b>Defining a set of attributes and indicators to evaluate the multidimensional performance of local to global food value chains: thoughts from Switzerland .....</b>	<b>1214</b>
Schmitt Emilia' Cravero Virginia, Belletti Giovanni, Marescotti Andrea, Brunori Gianluca and Barjolle Dominique	
<b>Resilience to Strategies to Loose Strictness of Specification Sheets in GI Consortia .....</b>	<b>1223</b>
Katia L. Sidali and Silvia Scaramuzzi	
<b>The Role of Values in Farmers' Markets; Comparative Case Studies in Minneapolis and Vienna</b>	<b>1233</b>
Milena Klimek, Jim Bingen and Bernhard Freyer	
<b>Workshop 2.5: Achieving co-benefits for sustainability and health through alternative agro-food systems .....</b>	<b>1245</b>
Convenors: Rebecca Paxton, Bernhard Freyer and Milena Klimek	
<b>Austrian organic farmers' perceptions of the relevance of environmental influences for health promotion .....</b>	<b>1247</b>
Paxton, R., Freyer, B., Leisch, F. and Bingen, J.	
<b>Contribution of short food supply chains to sustainability and health .....</b>	<b>1256</b>
Otto Schmid, Gianluca Brunori, Francesca Galli, Pieter van de Graaf, Alistair Prior and Roberto Ruiz	
<b>Workshop 2.6: Integrative and interdisciplinary approaches to the ecologisation of agrifood systems .....</b>	<b>1263</b>
Convenors: Claire Lamine, Benoît Dedieu and Gianluca Brunori	
<b>Technical and commercial change during transition to organic farming: towards a methodological approach based on the scope of the leaps forwards.....</b>	<b>1264</b>
Caroline Petit and Christine Aubry	
<b>Upscaling grassroots innovation for sustainable agriculture: experiences from the Dutch dairy sector .....</b>	<b>1275</b>
Frans Hermans, Dirk Roep and Laurens Klerkx	
<b>An innovation systems model for innovation research in the bio-economy .....</b>	<b>1286</b>

<b>An approach for assessing the ecological intensification of livestock systems .....</b>	<b>1359</b>
Ludmila Couto Gomes, Jean-Yves Pailleux, Benoit Dedieu, Claudete Regina Alcalde and Sylvie Cournot	
<b>Integrating crop and livestock activities at territorial level in the watershed of Aveyron river: from current issues to collective innovative solutions .....</b>	<b>1371</b>
Moraine Marc, Grimaldi Juliette, Murgue Clément, Duru Michel and Therond Olivier	
<b>Crossing two niches of agroecological innovation: the case of organic farming and conservation agriculture .....</b>	<b>1385</b>
Audrey Vankeerberghen and Pierre M. Stassart	
<b>Describing the evolutions, in a territory, of the interactions between livestock farming systems and downstream operators. Proposal for a methodological framework, based on the comparison of 4 territories and 2 types of production: milk and meat.....</b>	<b>1393</b>
M.O.Nozieres, V. Baritaux, S.Cournut, M.Gedouin and S.Madelrieux	
<b>The co-production of sustainability by learning networks. The case of reconstruction of knowledge and practices around bread production. ....</b>	<b>1405</b>
Rossi Adanella, Dvortsin Leo and Malandrin Vanessa	
<b>From genetics to marketing (...and through complex connexions and interdependencies): an integrative approach of the ecologisation of fruit production .....</b>	<b>1417</b>
Claire Lamine, Jean-Marc Audergon, Servane Penvern, Sylvaine Simon and Jean Pluvinalage	
<b>Workshop 2.7: Sustainability of Dairy Farms – Concepts, Measurements and Empirical Results</b>	<b>1429</b>
Convenors: Ludwig Theuvsen, Birthe Lassen and Monika Zehetmeier	
<b>Sustainability of Management-intensive Grazing Dairy Farms versus Conventional Confinement Dairy Farms.....</b>	<b>1430</b>
Dale M. Johnson, James C. Hanson, Raymond R. Weil, Rachel Gilker, Eric Lichtenberg and Kota Minegishi	
<b>Strategies for increasing dairy production while controlling environmental footprint on dairy farms in Canterbury, New Zealand .....</b>	<b>1438</b>
D.E. Dalley, J.B. Pinxterhuis, D. Chapman, G. Edwards, K. Cameron, H. Di, P. Beukes and A. Romera	
<b>Sustainability of living systems within milk production in need of resources and regulation.....</b>	<b>1446</b>
Albert Sundrum	
<b>Evaluating the impact of intensification of dairy production on the sustainability and environmental safety .....</b>	<b>1455</b>
H. Sommer and G. Leithold	
<b>Implementation of greenhouse gas mitigation strategies on organic, grazing and conventional dairy farms .....</b>	<b>1462</b>
Victor E. Cabrera and Marion Dutreuil	
<b>Carbon footprint and energy consumption of Luxembourgish dairy farms .....</b>	<b>1473</b>
Rocco Lioy, Tom Dusseldorf, André Meier, Romain Reding and Steve Turmes	

<b>A life cycle assessment case study of the carbon footprint of high performance Irish, UK and USA dairy farms .....</b>	<b>1482</b>
D. O'Brien, J.L. Capper, P.C. Garnsworthy, C. Grainger and L. Shalloo	
<b>Economic Assessment of Dairy Farm Production in Kosovo .....</b>	<b>1492</b>
Hysen Bytyqi, Mentor Thaqi, Fatma Hoxha, Arian Misini, Blerim Haxhija, Hajrip Mehmeti and Victor E. Cabrera	
<b>Environmental, social and economic aptitudes for sustainable viability of sheep farming systems in northern Spain .....</b>	<b>1499</b>
Batalla, M.I., Pinto M. and del Hierro, O.	
<b>Linking practice to policy: Dairy farmers' understanding of ecosystem services for long term farm sustainability .....</b>	<b>1509</b>
Magnus Ljung and Kristina Marquardt	
<b>Economic impacts of strategy selection in Austrian dairy farming: an empirical assessment.....</b>	<b>1520</b>
S. Kirchweger, M. Eder and J. Kantelhardt	
<b>A slacks-based Data Envelopment Analysis framework to identify differences in sustainability patterns between four contrasting dairy systems .....</b>	<b>1528</b>
AD Soteriades, P Faverdin, M March and AW Stott	
<b>Workshop 2.8: Farming the cities: Exploring the role of agriculture and food in enabling sustainable urban food systems .....</b>	<b>1536</b>
Convenors: Aurora Cavallo, Francesca Giarè and Clara Cicatiello	
<b>Mainstreaming Urban Agriculture in the Middle East and North Africa: a multi-stakeholder approach.....</b>	<b>1537</b>
Salwa Tohmé Tawk, Ziad Moussa and Shadi K. Hamadeh	
<b>Feeding the City - Foodsheds and Urban Agriculture in San Diego.....</b>	<b>1544</b>
Manuela Ricci, Claudia Mattogno, Bruno Monardo, Anna Laura Palazzo and Pietro Antonio Valentino	
<b>Sustainable development for a model of agriculture in the metropolitan systems.....</b>	<b>1554</b>
Alberto Pirani, Anna Gaviglio and Mattia Bertocchi	
<b>Exploring the role of Farmers in Short Food Supply Chain: the case of Italy .....</b>	<b>1566</b>
Luigi Mastronardi, Davide Marino, Agostino Giannelli and Marianna Gagliano	
<b>The city welcomes the mountain: alternative food chains in Trentino.....</b>	<b>1579</b>
Blasi E., Cicatiello C., Pancino B. and Franco S.	
<b>The local agrifood systems in face of changes in urban rural relationship: the foodscape of Rome</b>	<b>1589</b>
Cavallo Aurora, Guadagno Rossella and Marino Davide	
<b>Food and beyond. Multifunctional farms in the metropolitan context of Rome .....</b>	<b>1599</b>
Stefano Grando, Roberto Henke, Livia Ortolani and Francesco Vanni	
<b>Between research and action: problems and conflicts arising in the construction of the MAP of the Solidarity Purchasing Groups in Rome .....</b>	<b>1613</b>
Cristina Salvioni and Maria Fonte	
<b>Local Food Systems: Opportunities and Threats in creation of local model in Lombardy (IT).....</b>	<b>1624</b>
Andrea Porro, Giovanni Ferrazzi, Roberto Spigarolo, Stefano Corsi and Stefano Bocchi	

<b>The extent of urban agriculture and its contribution to food security in low income areas: The case of Msunduzi Local Municipality in South Africa .....</b>	<b>1633</b>
M. Mudhara, U. Kolanisi, J. Chitja and K. Naidoo	
<b>AFNs in periurban areas: the meeting of food demand and supply as an emergent issue .....</b>	<b>1645</b>
R. Filippini, E. Marraccini and S. Lardon	
<b>School food procurement and Sustainability in northern England and Wales .....</b>	<b>1655</b>
Mark Stein	
<b>Multi-actor organization for urban food systems: short but collaborative supply chains.....</b>	<b>1663</b>
Redlingshöfer, B., Traversac J.B., Messmer, J.G. and Aubry C.	
<b>A meeting point between agricultural producers and consumers: the Italian Solidarity Purchasing Groups case study .....</b>	<b>1672</b>
Borri Ilaria, Borsotto Patrizia and Aguglia Laura	
<b>Growing food for self-consumption inside cities: lessons learnt from urban allotment gardens in Paris and Montreal .....</b>	<b>1683</b>
Jeanne Pourias	
<b>Workshop 2.9: Greening the CAP .....</b>	<b>1695</b>
Convenors: Monica Commandeur and Flaminia Ventura	
<b>Posters: Greening the CAP yourself – Agricultural knowledge exchange networks: Example network 1: “Let’s use half as much herbicides (SMS)”; Example network 2: “Pigs and landscape improvement” .....</b>	<b>1697</b>
Monica A.M. Commandeur	
<b>Determining the feeding value and digestibility of the leaf mass of alfalfa (<i>Medicago sativa</i>) and various types of clover .....</b>	<b>1701</b>
H. Sommer and A. Sundrum	
<b>CAP vs farmers: which beliefs move incentives.....</b>	<b>1707</b>
Francesco Diotallevi, Flaminia Ventura and Gaetano Martino	
<b>Workshop 2.11: Larger fields, faster tractors, GPS, milk robots, automated egg production, ... Does this type of agricultural change contribute to lasting prosperity and resilience? .....</b>	<b>1721</b>
Convenors: Karlheinz Knickel, Ika Darnhofer and Mark Redman	
<b>Rice, Smallholder Farms, and Climate Change in Bangladesh: Policy Suggestions for Climate and Social Resilience .....</b>	<b>1723</b>
M. Mizanur Rahman, Bradley Klees and Tasfi Sal-sabil	
<b>Development trajectories of mountain dairy farms in the globalization era. Evidence from the Vercors (French Northern Alps) .....</b>	<b>1733</b>
Sophie Madelrieux, Médulline Terrier, Dominique Borg and Laurent Dobremez	
<b>Swedish Pig Farming from a Degrowth Perspective.....</b>	<b>1743</b>
Erika Öhlund	
<b>Changes and resistance in family farming systems facing the agricultural intensification model in emerging countries. The example of Paraná State in Brazil.....</b>	<b>1754</b>
Dimes Soares Júnior, Philippe Pedelahore, Nathalie Cialdella and Ricardo Ralisch	

<b>Motivation for increased production among Norwegian farmers .....</b>	<b>1762</b>
Magnar Forbord and Jostein Vik	
<b>The local landscape attractiveness as the ground for innovative land management: acknowledging new place based interactions for resilient farm systems .....</b>	<b>1772</b>
Teresa Pinto-Correia and Carla Gonzalez	
<b>Resilience of family farms: understanding the trade-offs linked to diversification .....</b>	<b>1778</b>
Ika Darnhofer and Agnes Strauss	
<b>Subsistence and semi-subsistence farming in Hungary. From modernisation to ecological and social sustainability .....</b>	<b>1789</b>
Imre Kovách	
<b>How ICT is changing the nature of the farm: a research agenda on the economics of big data.....</b>	<b>1802</b>
Krijn Poppe, Sjaak Wolfert and Cor Verdouw	
<b>“We manage what we can at pace we can”: small farmers’ development strategies in turbulent context in post-socialist Latvia .....</b>	<b>1814</b>
Talis Tisenkopfs and Sandra Šūmane	
<b>What determines the flexibility of farming systems? A case-study of the bovine farming sector in Belgium.....</b>	<b>1828</b>
Erwin Wauters and Frankwin van Winsen	
<b>Resilient farmers’ strategies and policy regulations: the quest for modernization on Dutch and Italian dairy farms.....</b>	<b>1836</b>
Paul Swagemakers, Pierluigi Milone, Flaminia Ventura and Xavier Simón Fernández	
<b>Assessment of two modern milk farms (low input versus high external input) in Switzerland focused on sustainability and resilience criteria .....</b>	<b>1846</b>
Otto Schmid and Philippe Näf	
<b>Farmers’ perception on options for farm development in a situation of limiting nearby surroundings</b>	<b>1852</b>
R.G. (Ron) Methorst, D. (Dirk) Roep, F.J.H.M. (Frans) Verhees, J.A.A.M. (Jos) Verstegen	
<b>More sheep, more space...but not any tractor! Is farm enlargement (always) damageable regarding sustainability in French Mediterranean mountains? .....</b>	<b>1862</b>
Jacques Lasseur, Lucie Dupre and Julia Sicard	
<b>Well-functioning landscapes – on re-coupling agricultural and rural development.....</b>	<b>1873</b>
Lone Søderkvist Kristensen, Tobias Plieninger, Jørgen Primdahl and Erling Andersen	
<b>An attempt to clarify the resilience concept for renewed strategies of agricultural and farm modernization .....</b>	<b>1882</b>
Karl Bruckmeier and Gunilla Olsson	

<b>WORKSHOP THEME 3 CLIMATE CHANGE: FARMING SYSTEM APPROACHES TO MITIGATION AND ADAPTION.....</b>	<b>1895</b>
<b>Workshop 3.1: Soil management: facilitating on-farm mitigation and adaption.....</b>	<b>1895</b>
Convenors: Julie Ingramm, Sandra Nauman and Jan Verhagen	
<b>Assessing farmers' intention to adopt soil conservation practices across Europe.....</b>	<b>1896</b>
Bijttebier J., Ruysschaert G., Marchand F., Hijbeek, R., Pronk, A., Schlatter, N., Guzmán, G., Syp, A., Werner, M., Bechini, L., Guiffant, N. and Wauters E.	
<b>Barriers to adopting best management practices aiming at soil fertility and GHG mitigation across dairy farmers in The Netherlands .....</b>	<b>1907</b>
R. Hijbeek, A.A. Pronk, H. ten Berge, M. van Ittersum, G. Ruysschaert and J. Verhagen	
<b>Management practices to enhance soil carbon: using stakeholder consultation to evaluate credibility, salience and legitimacy of information .....</b>	<b>1915</b>
Julie Ingram and Jane Mills	
<b>Achieving improved soil management on-farm – insights from a New Zealand case study.....</b>	<b>1924</b>
Janet Reid	
<b>Soil carbon management for climate change mitigation and adaptation: framing and integrating the issue in the evolving policy environment .....</b>	<b>1933</b>
Ana Frelih-Larsen, Sandra Naumann and Elizabeth Dooley	
<b>Workshop 3.2: Agroforestry research and practice in Europe .....</b>	<b>1941</b>
Convenors: Dirk Freese, Pierluigi Paris, M. R. Mosquera-Losada and Paul Burgess	
<b>Decision-Making Factors for Agrowood Cultivation- A Qualitative Research for Brandenburg/Germany .....</b>	<b>1942</b>
Sarah Keutmann and Dr. Philipp Grundmann	
<b>Assessing ecosystem services in perennial intercropping systems – participatory action research in Swedish modern agroforestry.....</b>	<b>1954</b>
Johanna Björklund <sup>1</sup> , Karin Eksvärd <sup>2</sup> and Christina Schaffer <sup>3</sup> .....	1954
<b>Effect of liming and organic fertilisation on soil organic matter in a silvopastoral system under Populus x canadensis Moench.....</b>	<b>1964</b>
Mosquera-Losada, M.R., Rigueiro-Rodríguez and A. and Ferreiro-Domínguez, N.	
<b>Innovative Alley coppice Systems-mixing timber and bioenergy woody crops: 7 years growth and ecophysiological results in experimental plots in northern Italy, Po Valley.....</b>	<b>1972</b>
Pierluigi Paris, Sara Bergante, Luca Tosi, Gianfranco Minotta, Massimiliano Biason, Maurizio Ventura and Gianni Facciotto	
<b>Workshop 3.3: Designing Cropping Systems for Adaption to Climate Change.....</b>	<b>1980</b>
Convenors: Thomas Döring, Frank Ellmer, Ralf Bloch and Johann Bachinger	
<b>The situation of current crop rotations in Northern Germany: risks and chances for future farming systems .....</b>	<b>1981</b>
Susanne Stein and Horst-Henning Steinmann	

<b>Yield 2050: Risks and opportunities for the German agriculture - A modelling approach .....</b>	<b>1987</b>
Maximilian Strer, Nikolai Svoboda and Antje Herrmann	
<b>Farmer responses to multiple stresses in the face of global change: Assessing five case studies to enhance adaptation.....</b>	<b>1996</b>
Giuseppe Feola, Amy M. Lerner, Meha Jain, Marvin J. F. Montefrio and Kimberly A. Nicholas	
<b>Agriculture, forest, climate: the road to new adaptation strategies in France (the AFCLIM foresight)2004</b>	
Noémie Schaller, Clément Villien, Pierrick Claquin and Julien Vert	
<b>Support building resilient smallholder farms to climate change: I. Livelihood profile and nutrient management in the Loba province, Burkina Faso.....</b>	<b>2013</b>
Alexandre Boundia Thiombiano and Quang Bao Le	
<b>Evaluation of maize varieties in a changing climate: on-farm vs. experimental stations .....</b>	<b>2021</b>
Julian Klepatzki, Thomas F. Döring, Janna Macholdt and Frank Ellmer	
<b>4 WORKSHOP SYNOPSIS.....</b>	<b>2030</b>
<b>5 FIELD TRIPS.....</b>	<b>2040</b>
Field Trip 1: Large-scale crop production on sandy soils .....	2040
Field Trip 2: Extensive grasslands on hydromorphic soils.....	2041
Field Trip 3: Agroforestry systems.....	2042
Field Trip 4: Paradise lost? Food supply strategies in the metropolitan region of Berlin now and then.....	2043
Field Trip 5: Urban agriculture in Berlin: From traditional peri-urban farming to self-harvesting and community-gardens.....	2045
<b>6 SHORT EVALUATION OF THE 11TH IFSA SYMPOSIUM.....</b>	<b>2047</b>
<b>PHOTO GALLERY.....</b>	<b>2051</b>
